

About Us

Tuya Suez is a smart technology company specializing in Smart Home, Building Automation, and Intelligent Control Solutions. We are committed to bringing innovative technology into everyday spaces, creating environments that are more connected, comfortable, secure, and energy-efficient.

Our portfolio features a wide range of smart solutions, including smart lighting and switches, sensors, smart locks, control panels, smart displays, and integrated automation systems, designed to work seamlessly together and deliver a unified smart experience.

We believe that smart technology should be simple, reliable, elegant, and accessible. That is why we carefully select and provide solutions that combine modern design, advanced technology, dependable performance, and ease of use.

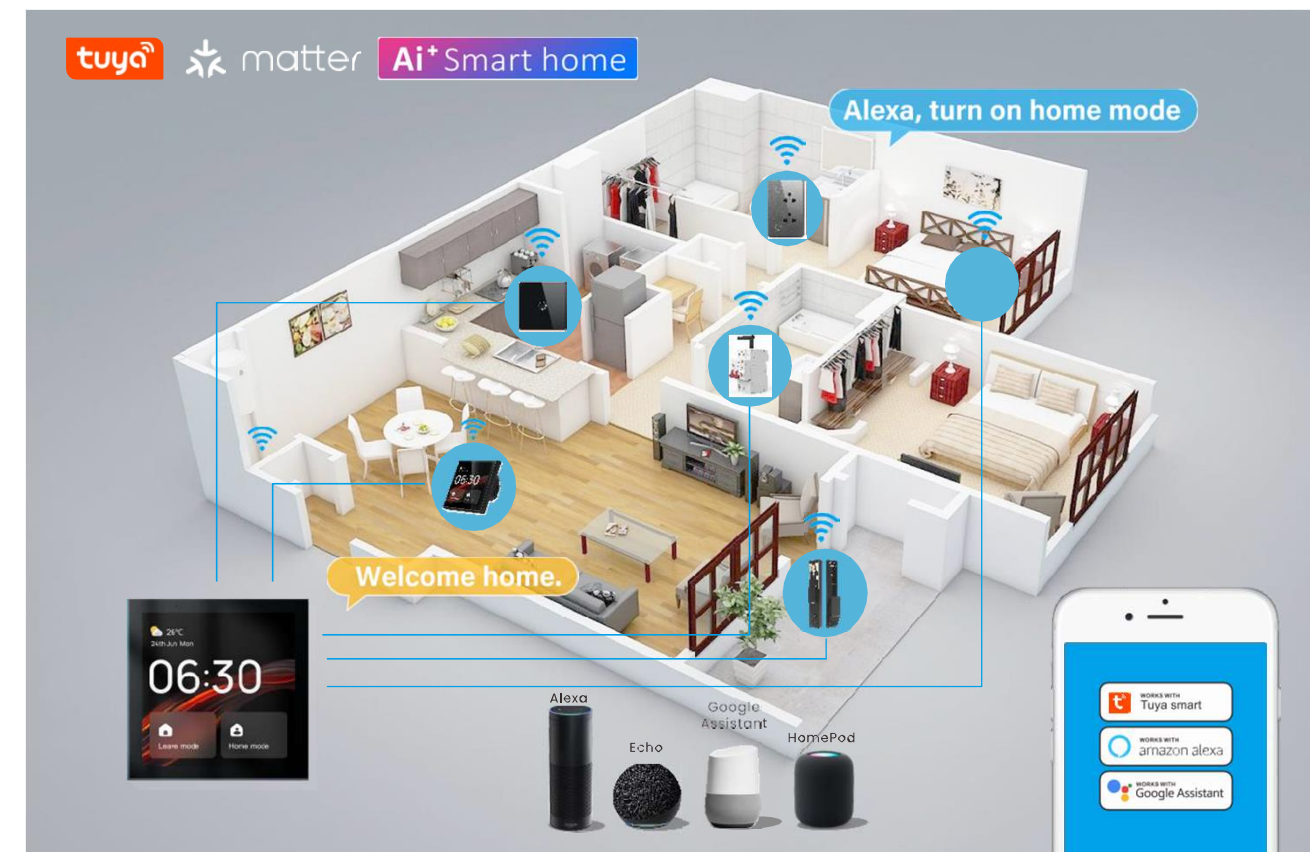

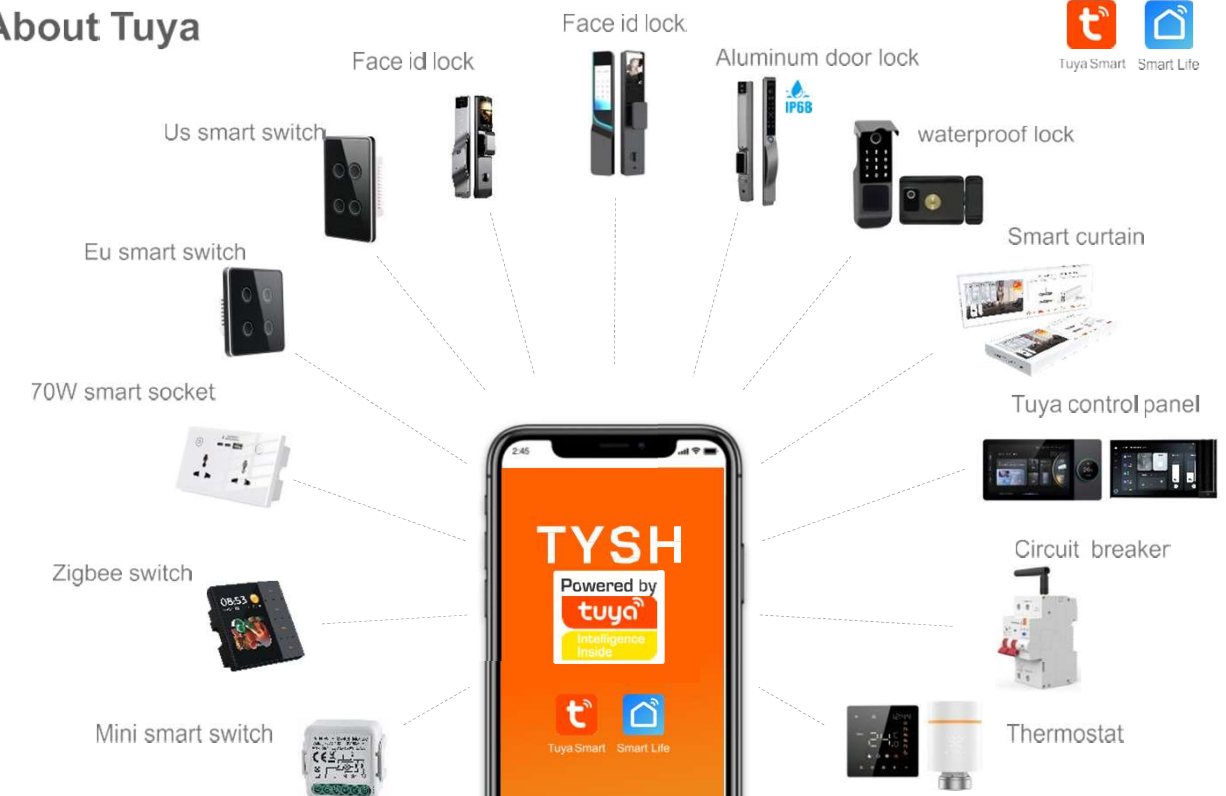

From individual homes and villas to offices, hotels, commercial spaces, and large-scale projects, Tuya Suez provides solutions tailored to meet the unique requirements of every project.

Beyond supplying products, we provide an integrated experience covering consultation, product selection, installation, programming, configuration, and system integration, ensuring every solution is professionally delivered and ready to perform.

At Tuya Suez, we are not simply providing smart devices — we are creating smarter ways to live, work, and connect.

Tuya Suez — Smart Living. Smarter Future.
